EDUCATION

University of Florida College of Liberal Arts and Sciences
BS Biology & BA Economics | GPA: 3.8/4.0

Gainesville, FL
Expected August 2026

EXPERIENCE

Rem & Company

Gainesville, FL

Senior Consulting Strategist

August 2025 – May 2026

- Grew daily signups 200%+ for the Pacemaker Club by engineering backend system optimizations and securing Google Nonprofit Program access to monetize their Cardiac Cafe series through targeted ad campaigns.
- Tripled review count, resolved 200+ unrouted weekly calls, and launched a med spa vertical for a 3,000 patient/year West Palm Beach medical practice by building their website, financial models, and full social media infrastructure from scratch.

Norman Fixel Institute for Neurological Diseases

Gainesville, FL

Medical Assistant

August 2025 – May 2026

- Reduced provider administrative burden by 20% across a 50+ patient daily volume by designing and deploying workflow automations that eliminated manual scheduling and data entry tasks.
- Led an active donor recognition mapping project by using Claude Code to pull institutional data, generate reports, and build a visual map for the institute's website, creating infrastructure the organization had no existing system for.

RA Capital – No Patient Left Behind

Remote

Biotechnology Fellow

May 2025 – August 2025

- Built the research-to-publication pipeline solo for a policy brief on biosimilar access, taking it from raw FDA data to a formatted argument read by 15,000+ people, with no editor or dedicated team.
- Evaluated drug affordability policy across the biopharmaceutical pipeline by synthesizing health economics research and presenting data-driven findings to fellows and advisors with varied technical backgrounds.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

University of Miami Diabetes Research Institute

Remote - Miami, FL

Research Trainee

August 2024-Present

- Led cross-functional research projects on redox signaling in autoimmune diseases and the pathophysiology of pancreatic ductal cells in T1D and T2D to identify novel therapeutic targets.
- Published a peer-reviewed meta-analysis on gene therapy for Type 1 Diabetes by synthesizing findings from 12 studies, producing a research deliverable that has since been cited in clinical literature.

Hearts for the Homeless

Gainesville, FL

Medical Information Director

September 2024-June 2026

- Direct logistical operations for 30+ community health screenings, managing volunteer engagement and ensuring strict HIPAA compliance for sensitive patient data.
- Designed and deployed a volunteer-facing website for a 250-person student org from scratch, creating the org's first digital infrastructure for scheduling, training materials, and event coordination.

Boca Save our Beaches

Boca Raton, FL

Cleanup Director

August 2023-August 2024

- Organized distribution of the Seamore the Seahorse children's workbook across schools, coordinating with teachers and districts to deliver marine conservation education to 1,000+ students ages 4-8.
- Grew organizational reach to 8,500+ community members by securing 36 corporate sponsor partnerships, running co-branded cleanup events, and gamifying the beach cleanup process through the CleanSwell app.

Florida Atlantic University College of Business

Boca Raton, FL

Researcher (Business and Economics Polling Initiative)

August 2023-May 2024

- Produced quantitative healthcare accessibility findings from 200+ U.S. consumers by designing and running a survey study using SurveyMonkey and Amazon MTurk, then analyzing results in IBM SPSS.
- Placed 2nd at the FAU undergraduate research competition by presenting data-driven findings on systemic market barriers to academic audiences at 4 national conferences.
